Model Build Needs - 1

- **A few points and clarifications on the displays and requests for new builds:**
- **These model builds are owned by the builders, and would just be loaned out for the club displays when they occur, if you choose to do so**
- **We typically re-use the same models for the displays each year, if the loaners are OK with that**
- **The models do not have to be built at contest-winning standards. Just good enough for a display and what represents ASM well**
- **Our two yearly displays are:**
 - **Folds of Honor – theme “all U.S. Services subjects from the Korean War through the Present.”**
 - **Air Force Anniversary Ball – theme “all USAF subjects from 1947 through the Present.” Sometimes have an event theme (like “Evolution of Flight”) and we include models for that.**
 - **USAF subjects are a player in both displays**
